ANNUAL REPORT FOR THE YEAR 2012-13

ABOUT ASHADIP

ASHADIP MEDICAL AND SOCIAL WELFARE ASSOCIATION a new name in the field of Social Welfare, is a registered organization(NGO), is operational since 2004 , let by highly experienced, qualified, enthusiastic professionals and incorporated with a vision to provide quality products, quality services, quality life style and social recognition to its associates.

VISION

A Society based on legitimate rights, equity, justice, honesty, social senility and a culture of service in which all are self-reliant.

MISSION

To identify with and work along the economically and socially deprived, the physically and mentally challenged-starting with children, so that they become educated, skilled and aware . Enable them to be self reliant, self-employ, and enjoy a healthy, dignified and sustainable equality of life. And to that end, act as a resource to and collaborate with other agencies- Governmental or Non-Governmental, as well as suitably intervene in policy formulation.

I have the pleasure to present the Annual Report of the Association on this day. With the meager resource of the Members and donation from the well wishers we are able to undertake the following activities during the report:

CAPACITY BUILDING TRAINING

We are aware that providing financial services alone will not make someone self-reliant. If we consider the financial assistance provided to literate and less educated women and man as hardware automatically one has to get software commands at the backend to facilitate a smooth work flow. Hence we have provided various types of trainings to these folks. Some of the major training are on SHG concepts, SHG book writing, Social awareness and sensitization, reproductive health training, family planning , financial literacy which includes dealing with bank, money transactions, credit linkages with financial institutions, stitching & tailoring, zory work training , food processing etc
